## About Me

An Innovative Software Engineer and Developer having Conceptual & Technical skills to use the Software Development and Engineering for Automation and Optimization of any Business/Organizational process.

## Work Experience

### SOFTWARE DEVELOPMENT ENGINEER | Adventz Group

(Jan 2025 Onwards)

- Worked on **SCM and EMS module** in **Enterprise Resource Planning System (ERP)**, developed **GRN/MRN, GIN, Product wise Stock Balance, Employee Master Format** etc.
- Designed **RESTful APIs** improving **response times by 40%**.
- Managed **State, API Integration** and maintained **GitHub Repositories** across **5+ projects**, streamlining **team workflows**.
- Developed a **secure authentication** which increased **data integrity and privacy by 60%**.

### FULL STACK DEVELOPER INTERN | Chabili Retails

(May 2024 – Nov 2024)

- Built and deployed **full-stack e-commerce application** using **React.js, Node.js, Express, and MongoDB**.
- Developed and integrated **scalable RESTful APIs** for **order placement, payment integration (50000+ successful transactions)**, and **inventory management, improving system response times by 75%**.
- Built a **responsive front-end** using **React.js, and Tailwind CSS**, which led to a **60% increase in user retention**.
- **Developed all interrelated functions** for this e-commerce application for seamless facilitation of end user.

## Projects

### **PROLINKER | Service Market Place**

- Designed and built a **full-stack application** enabling users to **register as service** or **seek services**.
- Implemented **user authentication and role-based access** using **JWT, Bcrypt**, ensuring **secure login/registration** and **protecting service provider dashboards**.
- Integrated **MongoDB with Mongoose** for **scalable data management**.
- Developed **dynamic dashboards** allowing service providers to **manage their profiles**, and service seekers to **browse services** across categories.

### **SOCIOPEdia | Social Media Application**

- Developed a **full-stack social media application** enabling user **Authentication, Post Creation, Likes, and Comments** using **MERN stack (MongoDB, Express.js, React, Node.js)**.
- Implemented **User Authentication** with **secure registration, login**, and **protected routes** for authorized users.
- **Designed RESTful APIs** using **Node.js and Express**, and managed data persistence with **MongoDB and Mongoose**.
- **Built interactive front-end** using **React, Tailwind CSS** with responsive design, real-time post updates, and dynamic routing.

### **CINEORA | Movie Streaming Platform**

- Developed a movie streaming platform using **Full Stack Web Development**.
- Integrated robust user **authentication** and **authorization** systems, including **login** and **signup** features.
- Created **category wise movie cards, video player** and **dynamic content loading** for seamless user experience.
- Focused on **mobile-first design**, ensuring **responsiveness** across various devices, enhancing user experience.

## Technical Skills

---

- **Development Expertise** – Full Stack Development, REST APIs, API Integration, Authentication, State Management
- **Libraries** - React.js, Next.js, Node.js, Express.js
- **Database Technologies** – MongoDB, SQL
- **Tools** - Postman, Firebase
- **Version Control** - Git/GitHub
- **Programming Skills** - Data Structures and Algorithms
- **Languages** – Java, Python, C/C++, JavaScript, HTML, CSS, Tailwind
- **Core Skills** - Object Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS)

## Education

---

**Bachelor of Technology (2021-2025) – 8.5 CGPA**

**Gautam Buddha University** (A Government University), Noida, India

## Courses

---

- **Accenture Developer Program** / Accenture
